RAMÓN ALFREDO FERNANDEZ LAPAIX

PROFILE:

- 1+ year of experience as a Web Developer with a diverse background in front-end and full-stack development. Demonstrated expertise in leveraging HTML5, CSS, and JavaScript to build and maintain dynamic websites. Skilled in collaborative environments, contributing to team projects and addressing design challenges.

PROFESSIONAL EXPERIENCE:

IDSS, DOM. REP.	Remote	Web Developer	Since: 03/01/2019	To: 22/08/2019

I played a pivotal role in maintaining and updating the institution's website, collaborating closely with a senior developer. Transferred from a data entry clerk position to assist with website maintenance and other department tasks. Utilized **HTML5, CSS, JavaScript, and WordPress** to ensure the website's functionality and aesthetic appeal.

AYTHEN, Spain.	Remote	Full-Stack Developer	Since: 11/01/2023	To: 11/07/2023

I played a crucial role in the development of key components, including modals, forms, pages, and custom hooks. Additionally, I actively contributed to enhancing the design of certain components. Simultaneously, I was involved in i18n integration, specifically in creating the dropdown menu and assisting with its translations. Furthermore, I seamlessly integrated and developed various pages, such as login pages, and implemented endpoints for essential functions like sending emails. I also managed data consumption in the front-end, maintaining it in the global state of REDUX. Additionally, I played a significant role in enhancing functionalities within the web page editor. In the realm of database development, I contributed to the creation of tables in Postgres. Leveraging express and REST, I crafted endpoints and facilitated their integration with the front end on pages requiring interaction with this information.

Tools: HTML, CSS, Javascript, Typescript, React, Express, postgres, ReduxToolkit, AWS cloud9

Portfolio: https://alfredou.github.io/portfolio/

EDUCATION:

Universidad Tecnológica de Santiago (UTESA)	**2017- 2023**

Computer Science Engineer (magna cum laude)
